

Green Cargo Logistics – Alcoholic beverages

Overall logistic solutions for the Nordic market

Alcoholic beverages

Books and Media

Construction Companies
and Home Improvement

Electronics

Fashion

Fast moving consumer goods

Sports and Leisure

Tires

Alcohol beverages

Green Cargo Logistics is the Swedish market leader in the alcoholic beverages' segment.

Our high delivery punctuality is acknowledged in the trade. At the consignees' annual evaluation of delivery accuracy Green Cargo was ranked as the best distributor since 2005.

We provide logistics solutions throughout the Nordic market; outside Sweden in cooperation with selected partners.

The logistic commissions represent to a large extent end to end solution including worldwide inbound transport, storage, pick and pack, and outbound distribution. Highly efficient technology and various degrees of automation are used for producing exposure pallets of various sizes.

The majority of the customer contracts are handled in new warehouses in Stockholm and Helsingborg.

Control tower

To increase the availability of information from the logistics flow, Green Cargo provides a web portal where information showing different activities and their status is monitored. In addition, reports presenting different statistical data are available.

The system enables customers and receivers, irrespective of haulier, to monitor and follow up their stock and orders.

The Control Tower increases all parties' possibilities of planning and optimization of utilized resources.

CUSTOMS SERVICE

- Green Cargo offers a secure, fast and efficient customs clearance. It's a complete service for handling of import and export flows to and from all over the world. We create customized solutions which enable significant cost savings for our customers.
- Green Cargo works on-line in the systems of the Swedish and Norwegian customs authorities. We can store the goods in bonded warehouse and distribute to the final recipient without previous customs clearance or any delaying customs procedures at the border.
- Green Cargo holds an AEO certificate (AEOC) issued by the Swedish Customs Service according to the rules of EU.

Pure Performance

Green Cargo holds an ISO 9001, ISO 14001, OHSAS 18001, AEO and Bra Miljöval certificate. The picking accuracy for all our warehouses was 99,93% in average during 2009.
